

WINDOWS 10 – Switch now!

Higher system security and easier updates for your machine software

Since January 2020, older Windows versions are no longer supported by Microsoft. To better protect your business against cybercrime and viruses, it's best to update your older version of the Windows system right away. We support you in a smooth transition with regards to already installed HOMAG software. Turn over the flyer for more information about our offer.

WINDOWS 10 – Simply “switch” with us!

We offer:

- **Updates** for HOMAG application programs such as CADmatic or woodWOP
- **Review** of the **powerTouch** machine control system with regard to future supportability and hardware availability
- **Professional project and conversion planning** with procurement and replacement of required components

You receive:

- **Individual software update and/or powerful Siemens IPC** after precise needs analysis to increase the efficiency of your production
- **Closure of security gaps** to ward off potential cyber threats and protect your operational processes
- **Support capability and spare parts availability** to guarantee uninterrupted operation
- **Improved user-friendliness** for smooth operation
- **Improved user guidance** for an optimal user experience
- **Improved performance** through the use of new functions to fully utilize your production potential
